

FREE Girls in Tech Summer Program

Apply at cgest.asu.edu/girlsintech

O'ahu Island
Hawaii Pacific University
Hawaii Loa Campus

Join us to **explore and learn** how girls and women use Science, Technology, Engineering, and Math (STEM) to make a **positive impact** in the world, and how you can too! You are invited to apply for a 5-day learning experience for girls of color to learn, lead, and build a future that you want to see.

In this program you'll get to explore app development, robotics, marine science, botany, space, computer science, and more! Girls will **work together** engaging with experts in STEM fields, **learning new tech tools and skills**, and collaborating on projects. The program is lead by faculty from Hawaii Pacific University & Arizona State University's Center for Gender Equity in Science and Technology with guest experts and mentors from a variety of STEM disciplines. The program will be hosted at Hawaii Pacific University - Hawaii Loa Campus. All students with faculty chaperones will stay overnight in student housing on campus during the program. Girls to arrive on June 20th between 5-7pm.

No tech experience required!

Just a willingness to participate and explore these cool uses of technology!

The program is FREE and includes all inter-island transportation, food, and housing costs.

Application Deadline: May 15th, 2021
