Why Attend: Contribute to the solution: Participate in interdisciplinary teams to co-construct action-oriented plans that transform STEM pathways for

underrepresented girls/women of color.

- Who Should Attend: Entrepreneurs, Academics, Educators, Venture Capitalists, Angel Investors, College and Graduate Students, Male Allies, Non-profit leaders, and
- anyone interested in addressing race-gender-ethnic disparities in computing.
- What Will We Do: Participate in an ideation garden; mentor girls attending a pre-
- conference; ignite and inspire each other; form new change-oriented collectives. What to do next: Book your room. Go to OR Code to find out more.

Please click on this image above to navigate to our website. If you have not done so, Book your Room Now.

CGEST Hosts Workshop on STEM **Education Research**

CGEST hosted a workshop about the future of research into equity and inclusion research in K-12 settings on November 8th and 9th. Click below to read more about the exciting two day event.

CGEST in the Community!

Ms. Henderson Singer recently joined CGEST and brings a wealth of experience from the PK-12 sector as a former math and science teacher and school administrator. Ms. Henderson Singer is a doctoral student with the School of Social Transformation and will be defending her dissertation this fall. In addition, Ms. Henderson-Singer will be working as the Project Coordinator with the AISL and 2020 Women of Color Conference. CGEST will continue to partner with AISES in supporting young people in Science, Technology, Engineering and Mathematics through continuous recruitment and community outreach.

The American Indian Science and Engineering Society (AISES) was held in Madison, Wisconsin. This year's theme was "Indigenizing the Future of STEM." The conference gathered over 3,000 high school and college students, college representatives and major corporations such as INTEL, BOEING, AMAZON, and many others. The 3-day conference was filled with many innovative workshops in science, engineering, computer science and entrepreneurship. A college and job fair were the highlight of the three-day conference. As part of CGEST, Dr. Scott and Ms. Henderson-Singer were invited to be a part of the AISES 2nd Convening for Native Students in Computer Science at the end of the conference. The meeting was a great opportunity to collaborate with various schools and organizations across the United States. The purpose of the meeting was to increase opportunities for Native American youth in Computer Science. In addition, our Project Coordinator, Sharon Henderson Singer will serve on the AISES Advisory Board for AISES. CGEST will continue to work with AISES to support and foster programs for Native American students in Arizona.

Sharon Henderson Singer, **Doctoral Student School of Social Transformation**

CompuPower

CompuPower!

CGEST hosted 80+ students and teachers on Wednesday, November 13 at the ASU Tempe campus. These CompuPower students attended their first field trip of the year where they engaged in place-based learning activities on topics of power, community, and identity. Read "It was Eye-Opening: CompuPower Students Examine Power, Identity, and Community" for the full details of this event.

Join us as we celebrate the 20th anniversary of the John P. Frank **Memorial Lecture with Emily** Bazelon, author of two national bestsellers, Charged and Sticks and Stones.

at Yale Law School, and a co-host of the Slate Political Gabfest, a popular weekly podcast. Before joining the Times Magazine, Emily was a writer and editor for nine years at Slate. She was also a regular guest on the Colbert Report and her work has appeared in outlets including the Atlantic, the Washington Post, Vogue, and This American Life. Emily is a graduate of Yale College and Yale Law School.

The John P. Frank Lecture is the School of Social Transformation's signature annual event. The endowed lecture series honors the memory of attorney John P. Frank (1917–2002), a leader in the Arizona legal community and one of our nation's great legal minds We thank the individuals and organizations whose support expanded the John P. Frank Memorial Lecture into an endowed Distinguished Visiting Professorship in the School of Social Transformation. Make a gift to the John P. Frank Memorial Lecture Endowment. Contact the School of Social Transformation to learn more about the lecture at (480) 965-7682. Read the edited collection of the first 12 lectures in Law and the Quest for Justice.

justice issues of our time, honors Frank's life-long commitments to justic scholarship and law. Justice and Socia Inquiry is proud to host the John P. Frank Lecture, which has been made possible through the generosity of the Phoenix law firm Lewis Roca Rothgerber Christie LLP (formerly Lewis and Roca), which Frank joined in 1954, and Frank's many friends and admirers.

and the nation.

About John P. Frank

John P. Frank is recognized as part of the

team that represented Ernesto Miranda

before the U.S. Supreme Court in 1966

- the case in which the High Court ruled that suspects must be advised of their right

to legal counsel. Frank wrote or delivered

and desegregation cases and made important contributions to the historical

brief for Brown v. Board of Education. He is remembered as well for his expertise i

ivil procedure and standards for judicial

disqualification. A lawyer, constitutional

scholar, historian, author and mentor,

his opinion was sought by presidents

and Supreme Court justices and he was influential in shaping public policy in Arizona

The series, which focuses on pressing

ents for numerous First Amendment

Thank you for Reading!

The Center for Gender Equity in Science and Technology (CGEST) at Arizona State University applies intersectionality as a framework that examines multiple identity markers (i.e. privilege, oppression, power) to reimagine equitable stations. CGEST enacts culturally responsive schooling that centers learning from the student's community and identity. Through its programs, CGEST provides resources in its curriculum to understand and critique STEM education so that historically marginalized groups see themselves shaping their culture and future in STEM.

The CGEST E-Newsletter provides updates on each of our areas of work and share upcoming opportunities for involvement and support and was updated by Kalani Rice, Program Manager for <u>CGEST.</u> We hope you enjoy the material and would love to hear from you regarding any feedback you may have.
